

SUCCESS DRAME

Backend Engineer & Cloud Infrastructure Specialist

success.drame@gmail.com | +234(0)813-037-3718 | [LinkedIn](#) | [Portfolio](#)
Abuja, Federal Capital Territory, Nigeria

PROFESSIONAL SUMMARY

Senior Backend Engineer with 5+ years of experience architecting robust financial technology solutions and cloud infrastructure, currently serving as Head of IT at Callphone Limited. Proven track record of leading development teams and delivering secure payment systems that process 100K+ daily transactions for Nigeria's major telecoms and banks including NIBSS, AEDC, MTN, Airtel, 9mobile, and Glo.

Key Expertise:

- Technical Leadership:** Architecting high-throughput backend systems processing millions in transaction volume
- Cloud Architecture:** Managing distributed infrastructure across AWS and DigitalOcean with 99.9% uptime
- Security & Integration:** Implementing secure VPN tunnels and payment integrations with 10+ major providers
- Performance Optimization:** Achieving 40% reduction in query response times and 60% deployment time improvement
- Domain Expertise:** Payment Systems, USSD Applications, Banking Integration, Telecom APIs

TECHNICAL SKILLS

Programming Languages: PHP, JavaScript, Node.js
Frameworks: Laravel, CodeIgniter, Vue.js
Databases: MySQL, MongoDB
Cloud Platforms: AWS, DigitalOcean
APIs & Integration: RESTful APIs, USSD Applications, Payment Gateway Integration
DevOps: Bash Scripting, Automated Deployment, Server Management
Security: Secure Coding, Network Defense, VPN Implementation
Tools: Sequelize ORM, Git, Linux Server Administration

PROFESSIONAL EXPERIENCE

Head of IT | Callphone Limited

April 2025 - Present (3 months)

- Leading the IT department with strategic oversight of technology infrastructure and operations
- Managing cloud infrastructure processing 100K+ daily transactions across distributed server architecture
- Overseeing technical team and driving digital transformation initiatives
- Ensuring system reliability, security, and scalability for financial technology solutions

Backend Developer | Selar

November 2024 - May 2025 (6 months)

- Contributed to backend development initiatives for Nigeria's leading digital product marketplace
- Developed and optimized APIs to support e-commerce and digital product distribution
- Collaborated with cross-functional teams to enhance platform performance and scalability

Backend Developer / Cloud Engineer | Callphone Limited

June 2022 - October 2024 (2 years 4 months)

- **Infrastructure Management:** Architected and managed cloud infrastructure processing 100K+ daily transactions across 7 cloud servers and 1 onsite server
- **Process Optimization:** Implemented automated deployment pipelines using bash scripting, reducing deployment time by 60%
- **Performance Enhancement:** Optimized database performance resulting in 40% reduction in query response time for high-load operations
- **Technical Leadership:** Led backend development initiatives and mentored junior developers in scalable system design

Backend Developer/Cloud Engineer | Awefun.io

June 2022 - February 2023 (9 months)

- **Cloud Solutions:** Developed and hosted APIs on AWS to support company's products and services
- **System Architecture:** Created architectural diagrams and documentation for new and existing applications
- **Performance Optimization:** Provided recommendations to improve systems and database performance under heavy loads
- **Automation:** Automated deployment, monitoring, and reporting routines through well-documented Bash scripts
- **API Documentation:** Documented REST APIs for internal teams and external partners with comprehensive sample payloads

Junior Backend Engineer | Callphone Limited

March 2022 - June 2022 (4 months)

- **API Development:** Developed and hosted APIs on cloud platforms for seamless user experience
- **System Integration:** Integrated external APIs using Factory Pattern for smart switching capabilities
- **Microservices Architecture:** Collaborated with development team to build microservices for new payment infrastructure
- **Database Management:** Created servers and databases to ensure optimal functionality and efficiency

IT Support Specialist | Callphone Limited

December 2021 - February 2022 (3 months)

- **Client Onboarding:** Managed customer onboarding and integration support for B2B clients
- **Technical Support:** Resolved API issues for customers, providing effective solutions to enhance user experience
- **System Administration:** Oversaw internal system configurations, including server setups and email configurations

Computer Instructor and Web Developer | Schoolville Limited

August 2020 - December 2021 (1 year 5 months)

- **Web Development:** Developed and managed diverse websites for clients using PHP Frameworks (CodeIgniter/Laravel)

- **Training & Education:** Taught students various computer training programs including Microsoft Office Package and Graphic/Web Design
- **Project Management:** Implemented Agile development practices to enhance project efficiency and collaboration

Teaching Assistant | St. Maria Goretti Girls Grammar School

June 2019 - May 2020 (1 year)

- Supported educational activities and student learning initiatives

Data Entry Clerk | The Carter Center (NYSC)

May 2018 - November 2018 (7 months)

- Performed data entry operations for Neglected Tropical Disease program for the Non-Profit Organization

Logistics Personnel/ Junior Web Developer | Schoolville Limited

March 2016 - September 2017 (1 year 7 months)

- **System Maintenance:** Maintained office appliances and assisted senior developers with projects
- **Application Development:** Utilized content management systems for application development and enhanced websites with additional features
- **Database Integration:** Aided in backend design, including database and server integration

EDUCATION

Higher National Diploma in Computer Science

Delta State Polytechnic, Ogwashi-uku | 2012 - 2018

Senior Secondary Certificate Education (SSCE/WAEC)

Golden Gate International Group of School | 2009 - 2012

CERTIFICATIONS

- [Android Mobile Development For Beginners](#)
- [Secure Coding - Ensuring Safe Deployment of Code](#)
- [Secure Coding - Secure Application Development](#)
